EVACUATION MAP HOLDERS
GET OUT SAFELY ... EVEN IN THE DARK

Bright, glow-in-the-dark background allows the map to be visible even when the lights go out (background appears white in regular light conditions). The border is printed with clear bold letters - with the glow area for the letters - to readily identify the evacuation map in light and dark. Holder is designed to easily accommodate clear transparency film insert (sold separately). Simply print map from your computer and slide into the holder.
Evacuation Map Holders

*Get out Safely - Even in the dark!*

Lumi-Glow™ Technology adds visibility to your evacuation map so workers can evacuate quickly and safely! No need for a Glow solution? Choose from our Non-Glow version.

- Bright glow-in-the-dark background makes your map visible even when the lights go out (background appears white in full-light conditions)
- Holder is printed with clear bold letters in the border to readily identify evacuation map in light and dark
- Map on clear insert contrasts with the background - white in light and "glow" in darkness
- Non-Glow holders can hold standard 8.5” x 11” or 11” x 17” copy paper or similar printed map

**19-805-223 Evacuation Map Holder**
