

Institutional Improvement Committee
November 12, 2010

Members present: Dan Lindsey, Chair, Susan Thielemier, Kim Lovelace, Cheri McKee-McSwain, Chris Lorch

Absent: Gin Brown, James Spurlock, Dave Rush, David Mitchell

Old business:

There is only one open item which is the request by Cheri McKee-McSwain for display space for her art students' work on the Mountain View site. The item has been tabled until it has been determined whether there will be display space in the new building at Mountain View.

New discussion today concluded that this item will remain tabled until Cheri knows more about what types of display areas will be included in the new building construction.

New business:

New business discussion was about possible permanent signage in restroom areas for No Smoking/Tobacco Free Campus. Dan Lindsey will look for pricing and see if it would be possible to get the same type of signage that is currently displayed in other areas of the college to create a uniform look.

Cheri McKee-McSwain discussed a fundraising activity to memorialize a former Ozarka student possibly with a plaque or by giving the money to help with the construction of the new building. She has mentioned this to the Student Government president and it was suggested by committee members that it could be referred to Student Services for further consideration.

No other items were discussed.

Meeting adjourned.
