

Institutional Improvement Committee  
February 25, 2011

Members present: Dan Lindsey, Chair, Cheri McKee-McSwain, Chris Lorch, Dave Mitchell, James Spurlock

Old business:

A long-term open item is the request by Cheri McKee-McSwain for display space for her art students' work on the Mountain View site. The committee has agreed to keep this item open until it has been determined whether there will be display space in the new building at Mountain View.

New business:

Cheri McKee-McSwain requested that the committee look into the possibility of having reserved parking for faculty and staff on the Mt. View site. James agreed that this was a need at Ash Flat, and Chris commented that the reserved parking on the Melbourne campus is often ignored by students, making it difficult for faculty to find a close parking spot. The committee agreed to discuss this further at the next meeting, which was tentatively scheduled for April.

No other items were discussed.

Meeting adjourned.
