Criminal Justice Leadership Advisory Committee

Members: Michael Orf
         Dale Weaver
         Tate Lawrence
         Walter Dillinger

The CJL advisory committee met with members Michael Orf and Dale Weaver present. After some discussion about the program and the direction of the program, Sheriff Weaver recommended that classroom criminal justice courses be added to the program when possible. This would better prepare individuals for advancement in the law enforcement by providing information not gained through their training. This was the only recommendation made as Sheriff Weaver thought the program was doing a superb job of providing area law enforcement officials with an opportunity to gain a college education.
