

# Ozarka College

*Providing life-changing experiences through education.*

## Private Education Loans

Please visit this link and read the **whole** application before choosing a lender. You will be required to complete the Borrowing Essentials tool before accepting any loan product disclosures. Once you have accepted the disclosures, you will be able to choose a lender. Students will have three lenders to choose from at this time. Ozarka still has two lenders who have not accepted our application, so there is potential that the list may include up to five private lenders at a later date. Students are free to choose any lender, including those not presented.

**If you choose a lender that is not presented, please contact the financial aid office and we will add the lender to the list.**

**Ozarka College does not endorse any lender, nor does it or its employees receive any compensation or benefits from any lender.** Please be sure to compare benefits and select the program that best fits your borrowing needs. You will have an option to choose loans with variable and fixed interest rates.
